

Late News Call WPW 2022

April 22, 2022 | Submission deadline

July 6-9, 2022 | Conference

July 4-5, 2022 | School

Bordeaux, France

WPW2022 invites authors to submit **late news papers** to present the most up-to-date results in the field. The papers should be between 3-6 pages in length and will be published in IEEE Xplore as a part of the conference proceedings subject to blind peer review.

WPW is the largest event in the world for wireless power research, covering a wide range of topics related to wireless power technologies across the electromagnetic spectrum.

Technical Areas

Technologies for wireless power transfer

Systems and circuits for wireless power transfer

Applications of wireless power transfer

Energy harvesting and hybrid systems[†]

Important Dates

April 22, 2022 | Submission deadline

May 2, 2022 | Acceptance notification

May 5, 2022 | Early registration deadline

June 1, 2022 | Final submission deadline
